LG Electronics USA, Inc. ("LG") will replace defective internal functional parts ("Part[s]") of a qualified MULTI V VRF System ("System" as defined below) that fail during the warranty period if it proves to be defective in materials and/or factory workmanship under normal application, installation, use and service conditions. This Limited Warranty shall apply to the System sold by LG in the continental United States, Alaska and Hawaii and extend only to the original end use purchaser and subsequent owner(s) of location on which the System is originally installed (all such persons hereinafter referred to as "Customer"). A qualified system is defined as a System installed by an individual and/or company: (a) who holds a current government issued license that authorizes the individual and/or company to service and install heating, ventilation, and air conditioning equipment in the state where the System resides, if required; (b) where the system is installed, started, operated and service in compliance with (i) guidelines set forth in installation, operation, maintenance and engineering publications made available by LG, (ii) software based design programs made available by LG, (iii) local and state law and, (iv) applicable building, mechanical, plumbing and electrical codes and in accordance with best industry standards and practices.

- 1. STANDARD ONE (1) YEAR PARTS WARRANTY FOR A QUALIFIED SYSTEM - The Part(s) are warranted for a period of one (1) year beginning on the date of original installation by the end use purchaser or eighteen (18) months from the date of manufacture shown on the System nameplate label, whichever occurs first.
- 2. EXTENDED PARTS WARRANTY FOR A SYSTEM INSTALLED BY A CONTRACTOR WHO HAS SUCCESSFULLY COMPLETED LG SERVICE TRAINING COURSES WITH A COMPLETE COMMISSIONING REPORT APPROVED BY LG.

EXTENDED WARRANTY

- 1. ADDITIONAL ONE (1) YEAR PARTS WARRANTY - The Part(s) are warranted for an additional one (1) year period during the second (2nd) year after the date of original installation or thirty (30) months from the date of manufacture shown on the equipment nameplate label, whichever occurs first.

HOW DOES THIS LIMITED WARRANTY APPLY?

- 1. The remedies set forth in the Limited Warranty shall be the sole and exclusive remedies and the original warranty period in this Limited Warranty shall not extend beyond the period set forth therein, nor will a new warranty period begin, upon replacement of the Part(s) provided under this Limited Warranty.
- 2. Replacement Part(s) may be of like kind and quality and may be new or remanufactured Part(s) and warranted for the remaining portion of the original System's warranty period of ninety (90) days, whichever is longer.
- 3. Defective Part(s) must be made available to LG in exchange for the replacement Part(s) and become the property of LG. This Limited Warranty covers the transportation cost for reshipment of any replaced Part(s) to the Customer, but does not cover the transportation cost and risk including shipping damage or loss for return of the Part(s) to LG or its authorized agent and any other costs associated with installation, removal, or re-installation of the Part(s). If any Part(s) returned to LG are found not to be defective or this Limited Warranty has expired, the Customer is responsible to pay for return shipping cost.
- 4. This Limited Warranty does not cover charges for labor or other costs incurred in the trouble shooting, maintenance, repair, removing, replacing, installing, complying with local building and electric codes, handling, or replacement of Part(s) and the complete System.
- 5. LG will not be responsible or liable for any and all costs such as but not limited to any parts, labor, supplies, or refrigerant necessary to alter, rework, or modify the System to prepare the System for proper commissioning.
