Notes:

1. The Power Input is rated at high speed.
2. Electrical data listed is without an electric heat kit accessory option. The addition of an electric heat kit accessory option will change the electrical data.
3. Requires an LG wall controller because ducted units don't have an infrared receiver.
4. See Engineering Manual for sensible and latent capacities.
5. Sound pressure levels are tested in an anechoic chamber under ISO Standard 3745.
6. At factory fan speed setting.
7. Maximum static pressure may result in reduced airflow (CFM).
8. All communication cable to be minimum 18 AWG, 2-conductor, stranded, shielded and must comply with applicable local and national code.
9. Power wiring cable size must comply with the applicable local and national code.
10. Adjust fan speed to correct for static pressure increases when using field supplied air filter or heat kit.
11. Must follow installation instructions in the applicable LG installation manual.
